TO: Department Directors
FROM: Patrick Kenney, Director of Budget and Finance *PK*
RE: Historical Preservation Program

The attached legislation was recently approved by the State Legislature and we have been collecting monies since mid-year. We have included \$300,000 in the 2006 Special Projects Budget for Section (1) (a) activity. There isn't much definition as to what constitutes "promote historical preservation or historical purposes, which may include preservation of historic documents." George Walk has provided some potential guidelines (also attached) which could be used to determine program or activity eligibility.

If you have a program or activity for which you would propose to use these monies, please send a description of that activity and a proposed budget to my office by January 20th.

cc: M. Schmidtke
